

# Transforming your driving compliance

Exciting new development  
for DriverCheck clients

# Platform Upgrade

Great news - we're upgrading to a brand new platform.

DriverCheck is partnering with sister company Licence Check (part of Ebbon Group) to offer a **faster** and more **efficient** way to manage driving compliance through its award-winning **DAVIS** platform.

What's more, you'll benefit from **additional functionality**, **further flexibility** and **greater insight** - **without incurring any additional cost**.

More automation

Faster checks

Enhanced security

## And the best part?

- ✔ Driver permission is transferred across (no need to re-mandate)
- ✔ No additional fees (unless you choose to include additional services such as Fleet or Coaching)

# The smarter way to manage your drivers, vehicles and risk

---

DriverCheck DAVIS will provide the same service with the addition of the following great benefits:

## Customisation

Added flexibility with varying recheck periods across driver types

## Permission

6 methods to gain consent, including e-permission for a quick, paperless response

## Dashboard

Simple to use dashboard based application, with full access to all of your data

## Notifications

System generated emails and notifications to highlight upcoming risk

## Scoring

Enhanced summary view of risk with scores for individual drivers and overall fleet risk

## Reports

Advanced reporting available within the platform 24/7 (over 50 reports available)

# Faster, more secure and accessible 24/7

Powered by  DAVIS

DAVIS is the UK's market leading platform created by Licence Check, DriverCheck's sister company. It performs over **1.5m driving licence checks** per year and services a range of industries with clients including Tesco, DPD, Travis Perkins, Octopus as well as having significant coverage of public sector organisations across the UK. The platform utilises state of the art technology to process instant checks in a secure and stable environment.

The system also has the following accreditations:

Options to enhance the user experience include:

Tighter security with  
our API integration

Reduce cognitive burden with  
Single Sign On (SSO)

Custom domain and  
branding options

# Frequently Asked Questions

---

## **Will I retain all of my data?**

Yes. The data transfer will be managed by us, and we'll migrate all data held, including historical checks, securely onto the new DAVIS platform.

## **When will I be switched to DAVIS?**

The migration project will begin in 2025 and as a valued client, we will prioritise your migration to take place in the first 6-12 months so that you can start benefiting from the new functionality as soon as possible.

## **Can I stay on the existing DriverCheck portal?**

All clients will be migrated over to the new DAVIS platform and the DriverCheck portal will eventually be retired.

## **Will I still have access to the customer services team at DriverCheck?**

Yes, you will still benefit from support in the same way - over the phone and via email. Plus, you'll have access to an online Knowledge Base containing videos and user guides.

## **Will it mean more work for me?**

We'll configure the account based on your current check settings, unless you'd like to use this opportunity to review them. The DAVIS platform automates and manages driver communication, which means administrative time is minimised and overall efficiency and accuracy is improved.

## **Will my drivers need to give updated consent to access their driving records?**

No, all current permissions remain valid on your current schedule and the consent obtained from existing drivers will be migrated over to the new DAVIS platform.

# The migration process

---

## Step 1

We'll set up an online meeting or share a short demo video to watch at a time to suit you

## Step 2

Together we'll plan a migration date convenient to you

## Step 3

Review and agree new end user agreement

## Step 4

We will transfer your data across to DAVIS (including history) with the same settings

## Step 5

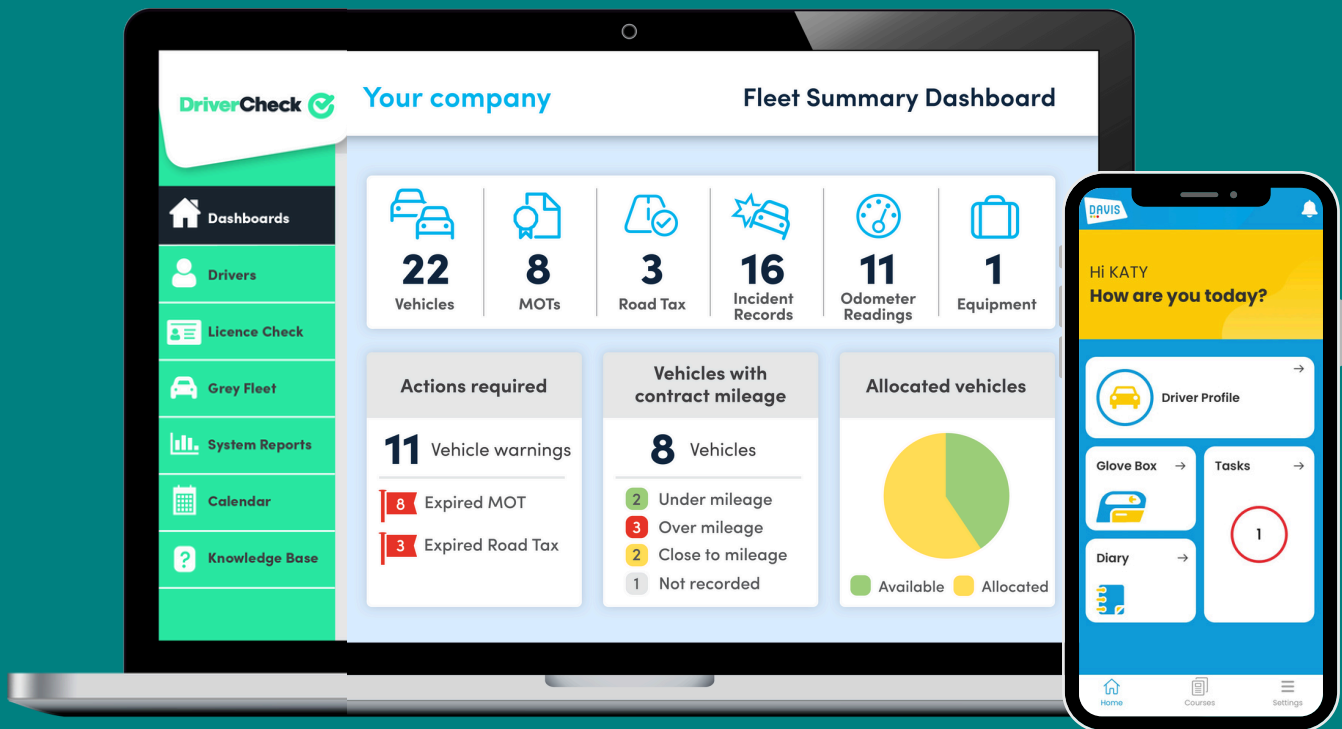

You'll have access to a new interface & a host of new benefits without incurring any additional costs

## Step 6

You will receive onboarding training and ongoing support from the DriverCheck team

# Additional services

There are additional driver and vehicle risk management services within the new platform that may be of interest to you.  
Let us know if you'd like more information.

## Fleet

Vehicle Lifecycle Management

Fines Management

Mileage Management  
(integrating with Driver App)

Policy and Document Management

Defect Management  
(integrating with Driver App)

Plant & Asset Management

## Coaching

Interactive driver training  
(delivered through Driver App)

Bite-sized learning for drivers

Improves driver knowledge, attitude and  
behaviour

Option to trigger licence endorsement  
training, such as speed awareness
